

CV

Professor.Dr. Bülent Cavit YUKSEL

Place and Year of Birth: Adana, 08.01.1971

Marital Status: Married, two children

Languages: English

E-mail: bulentcyuksel@yahoo.com.tr

Areas of interest

1. Benign and malignant diseases of the Colon-Rectum-Anal region
2. Open-laparoscopic and robotic surgeries of Colon-Rectum
3. Applying the Transanal total mesorectal surgery technique (TaTME) in rectum cancer surgery, which reduces the risk of exposure, protects sexual and urological problems, and most importantly, has a high rate of sphincter protection.
4. Transanal excision technique for early stage rectal cancer and difficult benign polyps (TAMIS-TEO)
5. Laparoscopic hernia surgeries
6. Laparoscopic gallbladder surgeries
7. Laparoscopic and open repairs of Pelvic Floor diseases
8. Surgical and non-surgical applications (laser, RF, POAM) in proctological (Hemorrhoids, Fissure, Fistula and Pilonidal sinus) diseases

Experiences

1996-2001 Specialization Training at Ankara Numune Training and Research Hospital, Ankara

January 2001- Ankara Numune Training and Research Hospital, General

I worked as a Specialist in the Department of Surgery.

I worked as an Associate Professor of General Surgery and Education Assistant at the same hospital between April 2010-18.

2016-2018 Ankara Numune Hospital Colon-Rectum group responsibility

2021-2023 Ankara City Hospital Colon-Rectum group responsibility

Joint Education Programs Abroad

Türkiye-Albania Fier hospital general surgery clinic establishment in 2021

To establish the general gerrahi clinic of Somalia-Mogadishu training and research hospital in 2016 and to start the training.

December 2015; Theoretical-practical training during Türkiye-Kyrgyzstan Health Week

February 2016; Theoretical-practical training during Türkiye-Kosovo Health Week

February 2017; Theoretical-practical training during Türkiye-Kosovo Health Week

March 2017; Theoretical-practical training during Türkiye-Pakistan Health Week

June 2017; Theoretical-practical training during Türkiye-Uzbekistan Health Week

March 2018 ; Theoretical-practical training during Türkiye-Djibouti Health Week

2018 ; Theoretical-practical training during Türkiye-Kenya Health Week

2019 ; Theoretical-practical training during Türkiye-Kazakhstan Health Week

2019; Theoretical-practical training during Türkiye-Kosovo Health Week

2019; Theoretical-practical training during Turkey-Uzbekistan Health Week

Trainings

University of Barcelona in 2014. Laparoscopic Colon&Rectum and Tat-Me surgery training

NY-Stony Brook University in 2016. Robotic Colon & Rectum surgery training

DaVinci Robot Console Certification in 2023

Scientific Publications

Nearly 50 publications in international SCI and SCI-E journals

Publications in international refereed journals

Publications in national refereed journals

Nearly 500 citations in journals within the scope of SCI and SCI-E

International Colon&Rectum book editor

National book editor

Chapter writing in national and international books

Professional Memberships

Turkish Colon & Rectum Surgery Association

Turkish Surgical Association

European Society for Surgical Research (ESSR)

Ankara Surgical Association

Ankara Breast Diseases Association

Federation of Breast Associations

Professional Awards, Degrees and Experiences

'Laparoscopic Complete Mesocolic Excision' video presentation Award (2nd Prize) at the 2021 International TKRCD Congress

'Transanal Total Mesorectal Excision: Surgical Technique' (1st Prize) at the 2023 International TKRCD conference

'Best Video Presentation Award' at the 2021 Eurasian Urooncology Congress

Having a technique accepted by international SCI group journals on Pilonidal Sinus (Ingrown Hair) 'A new surgical method of pilonidal sinus treatment: a bilaterally parallel elliptic fascio-cutaneous advancement flap technique'

Since 2001, there has been approximately 15 thousand surgical experiences, most of which are related to the laparoscopic and robotic colorectal field.
